

Industrial Waste Bins

At Absolute Containers we provide industrial waste bins for **sale**. In South African we are faced with high volumes of escalating waste, that is why we recommend making use of an industrial waste bin to help manage your **industrial and commercial waste disposal requirements**. Industrial waste bins have a robust structural quality and are eco-friendly making sure your waste is efficiently managed.

Does your business create too much waste for a normal bin?

Our industrial waste bins are very popular in the construction, scrap metals, spill response, mining and engineering sectors where were **remote municipalities** are often slow to collect waste. Using an industrial waste bin can help **save you time and money** making sure you no longer must make tedious trips to the local dump site to empty your regular bin. That is why you can conveniently choose between a 5.5 m and 6m x 2.44 m x 2.50m industrial waste bin purchase option. We pride ourselves by employing excellent workmanship and maintaining standards of exceptional quality to provide you with quality container solutions.
