

Shipping Containers

Absolute Containers has been providing quality **shipping containers** to clients since 2008 and is a leading specialists in domestic and commercial self-storage containers. Our aim is to provide clients with shipping container storage that is a convenient and cost-effective mobile solution.

Our secure storage containers can either be **bought** or **rented**, on a **short-term** or a **long-term** basis, allowing convenient storage access and container mobility. We supply new and second-hand shipping containers in 6m and 12m layouts for either hire or sale.

Advantages of purchasing a shipping container:

- Ideal container solution that is **wind** and **water tight**.
- Offers instant and **affordable** storage space alternative.
- Durable steel structure provides stored item **security**.
- Easy to transport and relocate due to container **mobility**.

Temporary shipping container usage is ideal:

- If you need to **temporarily** store items on your premises such as during renovations, extra furniture and so on.
- The ideal for **additional storage** space on site.

Shipping Containers

Permanent shipping container usage is ideal:

- When using a shipping container as a tool shed or permanent extra storage space.
- Storage of seasonal goods or big items e.g., Christmas decorations; camping equipment; machinery etc.

Shipping containers have **durable strength** suitable to **withstand shipment, storage, and handling**. All container **sizes are standardized** across the global industry to provide stacked shipping efficiency. Shipping containers are constructed out of **steel**, where all containers sizes and types are built according to the same ISO specifications, regardless of where the container is manufactured.
